The petition under 37 C.F.R. § 1.137(b) is **GRANTED**.

Decision on Petition pursuant to 37 C.F.R. § 1.137(b)

was received, and no extensions of time under the provisions of 37 C.F.R. § 1.136(a) were available. Accordingly, the above-identified application became abandoned on July 23, 2007. A notice of abandonment was mailed August 22, 2007.

With this petition, Petitioner has submitted the petition fee, corrected drawings, and the proper statement of unintentional delay. No terminal disclaimer is required.

Petitioner has met the first three requirements of Rule 1.137(b). The fourth requirement is not applicable.

It is noted that the address listed on the petition differs from the address of record. The application file does not indicate a change of correspondence address has been filed in this case, although the address given on the petition differs from the address of record. If Petitioner desires to receive future correspondence regarding this application, the change of correspondence address must be submitted. A courtesy copy of this decision will be mailed to Petitioner. However, all future correspondence will be directed to the address of record until such time as appropriate instructions are received to the contrary. Petitioner will not receive future correspondence related to this application unless Change of Correspondence Address, Patent Form (PTO/SB/122) is submitted for the above-identified application. It is not apparent whether the person signing the statement of unintentional delay was in a position to have firsthand or direct knowledge of the facts and circumstances of the delay at issue. Nevertheless, such statement is being treated as having been made as the result of a reasonable inquiry into the facts and circumstances of such delay². In the event that such an inquiry has not been made, Petitioner must make such an inquiry. If such inquiry results in the discovery that the delay was intentional, Petitioner must notify the Office.

The Office of Patent Publication will be notified of this decision so that the present application can be processed into a patent.
